Introduction

Salads have become increasingly popular in recent years, and with heightened popularity has come a greatly widened consideration of what makes a salad. Fresh crisp greens such as lettuce, chicory, romaine, escarole and watercress with white celery, cabbage and endive are as popular as ever. Indeed the vogue for the salad bowl has enhanced their favor. Added to these are the colored and cooked vegetables.

Fruit salads that are so American in origin and acceptance increase in popularity with every year and with the addition of every new variety. Indeed scarcely a fruit grows today but finds its place somewhere in a salad.

Recently there have been meat, poultry, cheese, fish, sea food and egg salads added to vegetables and fruits. These point to a new purpose for the salad, because in reality they are served as entrées or made the central theme of luncheon or supper. To this group have been added the molded salads whose beauty and lusciousness are bringing them rapidly into favor.

These and more will be found between the covers of this little book to be enjoyed by everyone who uses it.

YOUR SALAD BOWL

Wooden salad bowls develop a fine patina with age, and the flavor of garlic rubbed into the wood is preserved if the bowls are not washed. Drain the bowl each time after use, rub dry with absorbent paper and polish with oiled paper. This method also keeps the bowl from cracking. Keep in an oiled container or cheesecloth bag when not in use. If made of unfinished wood rub inside of bowl thoroughly with olive oil and dry out before using the first time. If possible, keep one bowl for green salads alone. Large pottery, china or glass bowls may be used if preferred, especially for fish, fruit and other salads mixed with mayonnaise. These should be chilled before salad is added and should, of course, be washed each time after using.

SALAD GREENS

Remove wilted leaves from greens and wash well. Drain and chill in ice water for ½ hour or refrigerate until crisp. Dry thoroughly by wrapping in towel or shaking in wire basket.

Never cut salad greens. Tear into large pieces or shred. Rub salad bowl with cut clove of garlic, add greens and toss with French dressing, using salad fork and spoon.

If you prefer to mix your dressing at table, put seasoning in salad spoon and fill with oil, sprinkle over greens and then pour over just enough additional oil to coat greens; toss lightly, sprinkle with lemon juice or vinegar (preferably tarragon) and toss again.

Instead of rubbing the bowl with garlic you may rub a small crust of dry bread with a cut clove of garlic and drop into bowl before adding greens. This may be taken out before serving, or cut into small cubes and mixed with the salad.

SALAD GARNISHES

SALAD GARNISHES

CUCUMBER TULIPS—Cut the ends (2-inch lengths) from unpeeled medium cucumbers. Cut 6 or 7 triangular sections down from cut edge, making petals. Toothpicks may be used as markers so that all the petals will be even. Hollow out remaining seeds, leaving a ¼-inch wall. Place a small rounded bit of carrot, rutabaga or beet on a toothpick and press into the center. Chill in ice water.

CUCUMBER BALLS—Cut large cucumbers into balls with French vegetable cutter and marinate in French Dressing. Sprinkle with paprika and serve as a garnish.

GREEN OR RED PEPPER RINGS—Cut a slice from the top of fresh pepper; remove seeds and partitions. Slice crosswise, making rings as wide as desired. These rings may be used to hold

together stalks of asparagus, whole string beans etc., or if cut quite wide they will serve as cups to hold mayonnaise.

JELLIED GINGER ALE CUBES—Sprinkle ½ tablespoon gelatin over 2 tablespoons cold water. Dissolve over boiling water. Cool. Add 1 cup ginger ale and mix thoroughly. Pour into a square pan which has been dipped in cold water. Chill until firm. Cut into small cubes. To make grape juice cubes use ½ cup grape juice and ½ cup ginger ale, instead of the 1 cup ginger ale.

RADISH ROSES—Trim off all but an inch of stem. Cut off root and with a sharp knife cut the outside layer down from the tip toward stem end in 5 or more sections so that the red outside covering stands out like the petals of a flower. Chill radishes in ice water until petals curl. Cut olives, capers, pimientos, slices of hard-cooked egg or beets into fancy shapes.

MELON BASKETS

Locate the center between the ends of a melon. One inch on each side of this point, make a cut downward ⅓ of the distance through the melon, make another cut 1 inch on the other side of the center point, thus making a 2-inch strip through the center down ⅓ way through melon. Cut from each end in toward center to this strip on each side and remove portions of melon. Remove edible portions of melon with French vegetable cutter or a spoon, chill.

WATERMELON BOWL

Cut watermelon lengthwise in a ⅓ to ⅔ proportion. Remove top third. Then cut out melon balls with a French vegetable cutter. Chill. Mark off 2-inch spaces on cut edge of melon and cut out triangular sections between each marker, making a notched edge. Fill bowl with chilled watermelon and cantaloupe balls.

Watermelon bowl or melon baskets for salad service will delight your guests

Pack in alternate layers with hard-cooked egg yolk mashed with a little mayonnaise, minced green peppers and minced pimientos, or minced fines herbes. Chill or freeze, unmold, remove paper and cut down in slices with knife dipped in ice water. Use striped slices as garnish, or for open-faced sandwiches, or serve alone on lettuce leaves with French Dressing.

½ cup chopped nuts

Cut olives into halves lengthwise, remove pits and chill. Mix cream cheese to a paste with mayonnaise, shape into small balls and roll in chopped nuts. Put the cheese balls between the halves of olives and press together slightly. Serve as garnish for meat or vegetable salads, or aspics.

CELERY CURLS

Cut celery stalks into 2-inch pieces. With a very sharp knife, begin at the outer edge and make 4 to 6 cuts parallel, extending about ⅓ of the way down the stalk. Place in ice water until celery curls. Both ends may be curled.

PICKLE FANS

Cut a small cucumber pickle into 5 or 6 very thin slices from the tip almost down to the stem end but leaving all the slices attached. Press lightly at the stem end to spread the "fan."

STUFFED PICKLES—Fill cored pickles with cream cheese. Chill 3 hours and slice.
